

4in1 Bucket Hitch & BX Front Hitch

4in1 Bucket Hitch

The 4in1 Hitch mounts inside the 4in1 bucket in seconds. Can be used with a tow ball, ball mount or as a Gin Pole. Installs in seconds, simply open the bucket and slide the hitch in, then close the bucket. Attach the safety chain and you're ready to go.

Provision for attaching dual trailer chains has been included. Provision for a safety chain attached to the bucket has been included.

Works with Australian (50x50mm) ball mounts and imported (51x51mm) ball mounts and tow balls (Not supplied) Works with most 4in1 buckets. Can also be used as a Gin Pole by inserting 50x50 RHS and adding some straps to your bucket hooks.

BX Front Hitch

The BX Front Hitch mounts to the front bumper and allows the attachment of a standard ball mount. Does not interfere with the grill guard (if installed).

Provision for attaching trailer chains has also been included. Installs in 10minutes using the factory bolt holes.

Supplied with grade 8.8 bolts, washers and Nyloc nuts. Works with Australian (50x50mm) ball mounts and imported (51x51mm) ball mount (Not supplied). Works with the BX23, BX23S, BX2380, BX24, BX25, BX25D, BX1850, BX1860, BX1870, BX2350 BX2360, BX2370, BX2660 BX2370, BX2680.
