

Long Legs & Fat Feet

Long Legs

These products replace the standard stabiliser set up, and improve your stability when using the backhoe.

Long Legs :

- widens the standard legs by up to 400mm
- adjustable to 3 positions
- retracts to the normal length
- stows in the standard position
- no modifications to the backhoe as it uses the existing mounting hardware
- The Long Legs & Fat Feet replace the standard set up.

Fat Feet

Fat Feet:

- increase the footprint surface area approx. 60% more on each side than the standard pads
- increases the stability in soft ground.
- suits the BX series backhoes including the BT600, BT601, BT602 and BT603.
- Supplied as a set of 2 feet.
- Can be purchased as a set with Feet and Legs or separately.
