

BX Rear Hitch & BX Rear Tow Bar

BX Rear Hitch

Mounts to the rear drawbar and allows the attachment of a standard ball mount.

Direct replacement for the drawbar plate that is intended for towing. Provision for attaching dual trailer chains included.

Does not interfere with the 3-point link or installing the backhoe.

Works with Australian (50x50mm) ball mounts and imported (51x51mm) ball mount (Not supplied).

Installs in 10minutes using the factory bolts.

Works with the BX23, BX23S, BX2380, BX24, BX25, BX25D, BX1850, BX1860, BX1870, BX2350 BX2360, BX2370, BX2660 BX2370, BX2680

BX Rear Tow Bar
